

## **Lion's Club Bake Sale Has Good First Year**

**October 13<sup>th</sup>, 2010 – Wichita, KS**

The Bake Sale put on by the Lion's Club on October 9th at the ARC of Sedgwick County was, by most accounts, a success. Being the first time that the Lion's Club has held this event, which also served chili and soup to those who attended, they were really just looking for a good turnout and for the event to garner some familiarity for the future. The event's proceeds went to help fund charity projects by our local Lion's Club and to the American Diabetes Association.

"We didn't draw quite the turnout we hoped, but the event was still a success," said Dr. Wendy Foster of Runyon Optometry and the Chair of the KOA Charity Care Committee. "We made enough to make the event worthwhile for the charities involved and got some recognition for the event. The hope is that this year, the event's first, will help build for next year and we can do even more."
